

19 January 2026

Dear Parent/Carer

Year 11 revision

We would like to let you know about some changes we are making to help Year 11 students prepare for their exams.

After listening to students in their mock feedback meetings, many told us they would like more help with how to revise. Because of this, we are going to focus on building strong revision habits over the next few weeks.

From **Tuesday 20 January**, Year 11 students will have a short assembly during tutor time **every Tuesday** for six weeks. In each assembly, they will learn a new revision technique. These techniques are simple, practical, and designed to help students remember what they have learned.

After each assembly, students will be given homework in several subjects that uses the revision technique they have been taught that week. This will help them practise the skill and build confidence. I will share each weekly revision technique through Class Charts.

What can you do to help?

- Support your son/ daughter by encouraging them to complete homework at home
- Speak to them about the revision techniques
- Provide a quiet space to work
- Set a time aside to revise

Many thanks for your ongoing support,

Yours faithfully

Miss A Grainger

Assistant Headteacher – Teaching and Learning
