Headteacher: Mr D Crossley

26th September 2023

Dear Parent/Carer

Period 6 for Engineering

As part of the WJEC Engineering course, students are required to complete two non-examination assessments (NEA) worth 40% and 20% of their final qualification grade. Students have now started their work on their first NEA which has a hand-in date of 1st December.

The NEA will require students to research a given product in detail, evaluate materials and recreate the product using hand tools and machines, as well as writing a comprehensive written evaluation.

We offer a **period 6 support session every Thursday between 3:05 - 4:05pm** for students to receive tailored support and to catch-up on any lost learning.

We believe it is of paramount importance that all students take the opportunity to attend the period 6 session to help ensure that they achieve the best grade possible in their assessments.

Yours faithfully

Mr. G. Scales
Teacher of Design and Technology and Engineering
